DESCRIPTION

We will assist and guide you with formation and registration of your Housing Society with relevant authorities.

Our services include liaising with the builder/promoter to manage transfer to your Society by conveyance deed, the right, title and interest, of the land and buildings/structures.

From the first General Body meeting until the election, we will make sure that all requirements as per the act are followed to the letter.

The entire election process will be supervised by a Maharashtra Govt. empaneled returning agent.

Creation of the share register, systems to manage the issue of initial shares and later transfer of shares will be put in place to maintain transparency
